EDUCATION:

B.Tech in Computer Science Engineering

Amrita Vishwa Vidyapeetham, Chennai

CGPA: 9.11 / 10.0 | Expected Graduation: 2028

TECHNICAL SKILLS

Programming Languages: Java, Python, C, Haskell

Data Structures & Algorithms: Arrays, Linked Lists, Trees, Graphs, Recursion

Web & Tools: HTML, CSS, JavaScript, MERN Stack, Git, GitHub, Power Automate, n8n

Additional Exposure: Unity (basic), Figma

PROJECTS

Previous Year Question Paper (PYQ) Website | HTML, CSS, JavaScript

- Built a centralized web platform to organize previous year question papers by department and academic year
- Implemented client-side classification logic to improve navigation and reduce search time

LEADERSHIP

Class Representative (CR)

- Served as the liaison between faculty and students, coordinating academic communication, feedback collection, and resolution of class-level concerns
- Automated weekly extracurricular reporting using **Microsoft Power Automate**, improving efficiency and response tracking
- Built an **n8n workflow** to automatically verify student-submitted certification links from Google Forms, ensuring data accuracy

EXPERIENCE

Web Development Team Member – Tantrotsav (Annual Tech Fest)

| On-site | Ongoing

- Contributed to the MERN-stack official website, assisting with UI improvements and basic security enhancements
- Gaining hands-on experience working on a live production system in collaboration with senior developers

CERTIFICATIONS & ACHIEVEMENTS

- Google Cybersecurity Certificate (Grow with Google)
- Postman student Expert Certificate
